Wednesday Night Student Activities

Although the public schools have the primary responsibility for the formal education of the community's youth, the Board recognizes that other agencies, both public and private, play a definite role in their education as well.

In recognition of this shared responsibility and in the spirit of cooperation with the various agencies, school principals will make every effort to coordinate activity scheduling to avoid the use of Wednesday nights. The exclusion of this night will provide a mid-week respite for staff and students from school activities and will allow other agencies the opportunity to interact with the community's youth.

It is understood that there is a need for communication between the schools and other youth-oriented agencies regarding scheduling of events. Building administrators are charged with the responsibility of establishing a process for open communications.
